

Plustek SmartOffice PS281

EZ Digital Filing & Document Management
Speed Up Any Business Processes with Paperless!

Makes the most of your scanning budget.

The Plustek SmartOffice PS281 scanner offers great functionality and superior high resolution, up to 600 dpi for all your 24-bit color, 256 levels of grayscale, and black-and-white scanning needs. This scanner matches your scanning budget and provides the outstanding performance value in a compact footprint. No matter central or distributed branch office, it can be used as the efficient tool for digital documents management. Special design to occupy the minimum space makes it well suited for the front-desk environment. It captures even the most intricate details of text and photos, all in a single pass.

Features business card scanning & DIM solutions.

The Plustek SmartOffice PS281 can be used as the footprint - ideal for receptionist/administrative front desk with limited budgets spending on office facilities. This scanner now features business card scanning through

the main automatic document feeder. The software AP bundled is well suited for the process of any business flow that needs to archive documents, scan in reports or implement digital document management system with economic cost.

Scans to searchable PDF directly and seamlessly.

The Plustek SmartOffice PS281 allows you to directly scan to searchable PDF format. With TWAIN driver and Single-Touch function buttons, it is really instant and seamless to communicate with more Document Imaging and Management software applications. It is easy to set the customized functions for any document scanning. Customization includes scan to searchable PDF, E-Mail, Copy and File. The built-in automatic document feeder (ADF) allows 50 sheets of documents to be scanned at one time and achieves fast scan rate of 20 pages per minute. Documents scanning through OCR and BCR make it simple and easy to edit, reorganize, store and archive files and also share with team mates.

Plustek SmartOffice PS281

Documents start to pile up?
Create, Search and Manage Documents Easily and Seamlessly!

The Plustek SmartOffice PS281 offers you a flexible and high-productivity way to efficiently manage all types of documents. From business cards to legal size documents scan, all can be converted to searchable PDF for further content and document management. It is suitable for SMB and organizations to enhance any business processes with paperless, for example **hospitals, law firms, CPA firms, financial institutions, education, and local government**. This is specially designed to provide maximum utility with minimum effort.
